

Asseman Patrizia Cagliani 1984

Double canopy bed, with canopy or mosquito-to-curtain

Materials:

FRAME: powder coated tubular steel, matt white or matt black, with adjustable feet.

HEADBOARD: plywood panels padded with foamed polyurethane and covered with polyester velveteen. For FR (Fire Resistant) versions, padding materials follow current regulations.

ORTHOPEDIC BASE: in plywood beech, transparent water-based or solvent-based painted.

EXTERNAL COVER: totally removable cover in fabric or non-removable in velvet.

CANOPY (optional): white cotton with laced up sides.

MOSQUITO-CURTAIN (optional): tulle in polyamide, with lower and upper edges in white cotton.

FIRE-RESISTANT MOSQUITO-CURTAIN (optional): fire-resistant Trevira, class 1.
