Tutte le parti imbottite sono rivestite con fibra termolegata ed accoppiata con tela di cotone bianca che conferisce morbidezza e sofficietà alle imbottiture isolandole dal tessuto, garantendo naturalezza ed igiene al prodotto. A perforated plywood panel, placed under the springs, facilitates the circulation of air. Headboard in solid wood with honeycomb core, padding in variable-density polyurethane foam and Memory Foam. All of the padded parts are covered in heat-bonded fiber coupled with white cotton canvas that lends a soft fluffiness to the padding while isolating it from the fabric, ensuring the bed is both natural and hygienic. An additional covering with breathable mesh fabric in the upper zone of the frame, allows for greater breathability of the pocket spring element. Zip closure for easy removal.
