

RP-E-1510P

XO Pendant

Design: Studio Edwards

Using translucent film, XO demonstrates the importance of structure and embodies the elegance of sail shaping and yacht design. The form and balance of this high-end LED luminaire relies on three brass battens acting as an exo-skeleton, pulling the 'sail' into shape. Much like the competition of open-water events, this luminaire places an emphasis on the application of technical skill.

Studio Edwards was established in 2016 to bring together architecture, interiors & conceptual design. Working across residential, hospitality, retail & hotel design, Studio Edwards' projects are independent of scale, with creativity as their most valuable asset.

Rakumba has been producing custom-made feature lighting for the Australian design industry since 1968. Collaborating with designers across a wide range of sectors from commercial to residential, we take pride in our bespoke service, attention to design detailing and ability to deliver on any scale of project.
