Collection

PELLE

NEW YORK

2019

PELLE is an independent design studio that combines the practices of art and engineering to create expressive design objects. Integrating artistic exploration with architectural integrity, Pelle offers an original collection of hand produced, professionally refined pieces.

Co-founded by Jean and Oliver Pelle in 2011, Pelle's atelier and showroom is located in Manhattan's Flatiron district. With collections ranging from lighting and furniture to home objects, Pelle is continually entering into new areas of design and materials.

NANA LURE

Nana combines realism with fantastical abstraction to bring a botanical illustration to life. Its distinctive banana frond is an enlivened specimen hand-sculpted into a single giant cast-cotton painted leaf. The leaf acts as a natural shade and is illuminated to become a standing or suspended light.

Lamp suspensions are intricate leatherwork and hand-hewn brass embellishments created in collaboration with A. Jason Ross of Artemas Quibble.

In the romantic spirit of botanical drawings, the Nana Lure lamp offers an imaginative depiction of a weathered and true banana leaf that exists in the tropical world.

DUST

An expansive and kinetic light installation composed of reflective shards, Dust isolates and explores the transitory moment of a breaking mirror.

Fragmented shapes are suspended in an arrangement of lit and mirrored surfaces to create an immersive experience of particles dispersed and floating. Each shape is at once random and immediately recognizable, echoing the unlikely patterns observed in shattered forms.

Dust mimics the effect of moving and twinkling dust particles carried in the air.

DVN

The DVN Table is crafted from a single material that is precision milled to achieve a perfect balance.

Alluding to traditional Japanese carpentry where complex joinery techniques are used to build structures without using nails or fasteners, each DVN Table is made from solid aluminum that is meticulously milled down to 1/1000 of an inch to create three curved supports that seamlessly connect with a circular tabletop. The surface is then hand-finished using a non-directional technique that amplifies the continuity of the design.

The DVN Table combines simplicity of material with a sophistication of craftsmanship to create a unified form.

'BE PATIENT'

In an age of the instantaneous where images have become accepted placeholders for real things, Be Patient is a call for an attentive appreciation of the physical.

Spanning over six feet in length, Be Patient's scale lends it an anthropomorphic quality, establishing a physical presence that puts it in dialogue with its space and occupants. Be Patient is a lasting object that will develop and deepen, revealing its nuances over time. The hand-polished aluminum exterior subtly reflects the surroundings while a beam of light beneath pulls the eye upwards. Hidden within, the delicate intricacies of a central blade and baffles diffuse light.

By offering a point of reference, Be Patient asserts the importance of the physical objects around us not merely as accessories, but as companions, and as reflections of ourselves.
